

**SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION****COMPANY ADDRESS:**

KHS-7268 STREET 5 KATAR
BUND Road Lahore PK.

EMERGENCY TELEPHONE NUMBERS:

(0311-1166610)

PRODUCT NAME

: **Anti-Bacterial Handwash (CONCEPT CHEMICALS)**

CHEMICAL NAME

: Hand Wash

PRODUCT USE

: For washing and rinsing on Hand surface for cleaning Purpose

PRODUCT BATCH NO.

: HW-7463c

PRODUCT CODE:

(C-32,C-29)

SECTION 2 - HAZARDS IDENTIFICATION SUMMARY

(As defined by OSHA Hazard Communication Standard, 29 CFR 1910.1200)

Appearance : Transparent and color liquid

HEALTH HAZARDS: May be harmful if swallowed, absorbed through skin, or inhaled. Mildly irritating to the eyes and skin.

PHYSICAL HAZARDS: Can decompose at high temperatures releasing toxic gases.

ENVIRONMENTAL HAZARDS Soap has relatively low order of toxicity. They may be slightly irritating, but they are not expected to be corrosive.

**SECTION 3 - COMPOSITION, INFORMATION OF INGREDIENTS**

COMPONENT	PERCENTAGE	CAS NUMBER
Sodium lauryl ether sulfate	8%	68585-34-2
Cocamidopropyl betaine	4 %	86438-79-1
Active Ingredients : Triclosan	0.1%	3380-34-5

SECTION 4 - FIRST AID MEASURES

First Aid responders should use protective equipment in Section 8 if there is a potential for exposure to product.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Low toxicity. Ingestion of large quantities may result in nausea, vomiting and gastrointestinal irritation.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Low irritant. Prolonged or repeated contact may result in mild irritation.

IF IN EYES: Irritant. Due to product form and nature of use, an eye hazard is not anticipated. However, direct contact may result in irritation, lacrimation and conjunctivitis Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then

continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Due to the low vapor pressure of this product, an inhalation hazard is not anticipated with normal use.

NOTE TO PHYSICIAN: No specific antidote, treat symptomatically.

SECTION 5 - FIRE FIGHTING MEASURES

National Fire Protection Rating (NFPA)

HEALTH	1
FLAMMABILITY	N
REACTIVITY	0
4=Severe 3=Serious 2=Moderate 1=Slight 0=Minimal N=None	

FLASHPOINT: >200°F / >100°C

EXTINGUISHING MEDIA: Nonflammable. No fire or explosion hazard exists.

FLAMABILITY: a burn in fire, releasing irritating and toxic gases due to thermal decomposition or combustion.

FIRE FIGHTING INSTRUCTIONS: Nonflammable.

FIRE FIGHTING EQUIPMENT: Self-contained breathing apparatus with full face piece.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

IN CASE OF SPILLS OR LEAKS If spilt (bulk), wear splash-proof goggles and PVC/rubber gloves. Absorb spill with sand or similar and place in sealed containers for disposal. Wash spill site down with water. For small amounts, dilute with water and flush to sewer Caution: surfaces may be slippery

SECTION 7 - HANDLING AND STORAGE

KEEP OUT OF REACH OF CHILDREN!

HANDLING: Use only in a well-ventilated area. Minimize dust generation and accumulation.

STORAGE Store in cool, dry, well ventilated area, removed from acids, combustible materials and food stuffs. Ensure containers are adequately labeled, protected from physical damage and sealed when not in use. Check regularly for leaks or spills.

USER SAFETY RECOMMENDATIONS:

1. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	liquid
Odor:	Moderate fragrance odor
pH:	6.9 – 7.9
Melting Point:	Not applicable
Boiling Point:	100°C
Flash Point:	Not Evaporative
Evaporation Rate:	Non Evaporated
Flammability:	Not flammable
Flammability Limits:	Not applicable
Vapor Pressure:	5.2×10^{-6} Pa @ 25°C
Vapor Density:	Not applicable
Density:	0.98 -1.02 pa
Solubility:	water soluble
Viscosity:	163 mPa/s @ 20°C

*Listed density is an approximate value and does not necessarily represent that of a specific batch.

SECTION 10 - STABILITY AND REACTIVITY

PRODUCT REACTIVITY: Non-reactive

CHEMICAL STABILITY: Stable under normal conditions, however may decompose if heated.

HAZARDOUS POLYMERIZATION: Product will not undergo polymerization

CONDITIONS TO AVOID: Avoid temperatures above 140°F (60°C) for prolonged period of time. Strong exothermic reaction can occur above 390°F (200°C)

INCOMPATIBLE MATERIALS: None known

HAZARDOUS DECOMPOSITION PRODUCTS: Hydrogen chloride, Carbon monoxide, Mild Acids.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute toxicity data from similar formulation

ACUTE TOXICITY:

Oral LD ₅₀ (rat)	- >1,100 mg/Kg
Dermal LD ₅₀ (rat)	- >2,000 mg/Kg
Inhalation LC ₅₀ (rat)	- >2.0 mg/L
Eye Irritation (rabbit)	- Mild irritant
Skin Irritation (rabbit)	- Slight irritant
Sensitization (guinea pig)	- Non-sensitizer

CARCINOGEN STATUS:

OSHA	- Not listed
NTP	- Not listed
IARC	- Not listed

TERATOGENICITY: No reproductive or teratogen (birth defect) effects at normal exposure levels.

MUTAGENICITY: No evidence of mutagenic effects during in vivo or in vitro studies.

SECTION 12 - ECOLOGICAL INFORMATION

ENVIRONMENTAL SUMMARY: This product is not anticipated to cause adverse effects to animal or plant life if released to the environment in small quantities. Not expected to bio accumulate.

Persistence/Degradability: This product is readily biodegradable

SECTION 13 - DISPOSAL CONSIDERATIONS

Do not contaminate water, food or feed by storage or disposal.

WASTE: No special precautions are required for the disposal of this product. However, re-use where possible or return to manufacturer. If bulk quantities are required to be disposed of, contact the manufacturer for additional information.

CONTAINER:

Refer to the container label to determine if it is refillable and for complete cleaning and disposal instructions.

SECTION 14 - TRANSPORT INFORMATION

SHIPPING DESCRIPTION: NOT CLASSIFIED AS A DANGEROUS GOODS BY THE CRITERIA OF THE ADG CODE

TRANSPORT HAZARD CLASS: N/A

UN NUMBER: N/A

DOT PACKING GROUP: N/A

SECTION 15 - REGULATORY INFORMATION

PoisonSchedule : A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Drugs and Poisons(SUSDP).

**SECTION 16 - OTHER INFORMATION**

HMIS HAZARD RATINGS	HEALTH	1
	FLAMMABILITY	0
	PHYSICAL HAZARD	1
	4=Severe 3=Serious 2=Moderate 1=Slight 0=Minimal	

ABBREVIATIONS:

CAS# -Chemical Abstract Service number -used to uniquely identify chemical compounds.

M -moles per litre, a unit of concentration.

mg/m³ -Milligrams per cubic meter.

NTP -National Toxicology Program.

OSHA -Occupational Safety and Health Administration.

pH -relates to hydrogen ion concentration using a scale of 0 (high acidic) to 14 (highly alkaline).

ppm -Parts Per Million.

DISCLAIMER: This Safety Data Sheet document has been compiled by **Concept Chemicals**. Further clarification regarding any aspect of this product should contact **Concept Chemicals** directly. While **Concept Chemicals** has taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, **Concept Chemicals** accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS.

Compliance Date: 01-01-2023
